

More About The Fisher House Project:

The Fisher House--"Supporting America's military in their time of need, we provide 'a home away from home' that enables family members to be close to a loved one at the most stressful time -- during hospitalization for an illness, disease or injury." The homes are built on the grounds of major military and VA medical centers.

Our local house, built next to the Dallas VA hospital, asked for quilts in order to provide the families staying at the house that little touch of home. We were given the option of asking that our quilts stay at the Fisher House to be used over and over or allowing the family to take the quilt home with them if they chose. We asked that the quilts be allowed to go home with the families as a VERY small token of our appreciation.
